Letter of Support - Native Plant Propagation Activities

Dear Kate,

I am writing in support of Angair's application to erect a relocatable propagating shed and small greenhouse on part of the land immediately behind the Youth Hall within the Anglesea Community Precinct.

We have sighted the proposed plans and location and consider the proposal to be an appropriate use of the land and a good fit with existing Community Precinct Activities. The group meet for a short time during daylight hours, no machinery is used and there are plenty of parking spaces within the precinct.

The propagation group plays a vital role in providing plants for restoring and improving native vegetation on Crown and private land. We would like to see the continuation of this important work.

The Anglesea Community House fully supports the proposal and have no objection to it whatsoever.

Yours sincerely,

A handwritten signature in black ink, appearing to read "G. Robinson".

Mr Peter Forster
President, ANGAIR
3C McMillan Street
ANGLESEA VIC 3230

Dear Peter,

We write in support of ANGAIR's Planning Application to the Surf Coast Shire to establish a Native Plant Propagation Nursery within the Anglesea Community Precinct.

We have spoken with Helen Tutt from the ANGAIR Committee. She has briefed us on what ANGAIR would like to achieve on the site. She has also shown us a Site Plan showing where the propagation area would be established.

A plant propagation project would certainly be a wonderful asset to this precinct. Along with our Community Garden, it would be a place for members of our community to come together, not only to learn and enjoy propagation, but to get together socially. We know that the Surf Coast Shire Council wants to see such activity happening in Anglesea. They have been a great support to our Community Garden, encouraging us to welcome new members, both young and old.

We wish ANGAIR well with this Planning Permit application, and trust that it won't be too long before an indigenous Native Plant Propagation Nursery is operating within the Anglesea Community Precinct.

Yours faithfully,

A handwritten signature in black ink that reads "Pauline K. Dean". The signature is written in a cursive style and is positioned above a long, thin horizontal line that extends across the width of the signature.

RE; ANGAIR Propagation Nursery

To Whom it may concern:

As a co-tenant of the Anglesea Community Precinct, we would like to support ANGAIR in their application to place a re-locatable shed and small greenhouse within the precinct. We believe their chosen site, behind the Memorial Hall, is an area currently not being utilized, out of the way and largely out of sight. Their work in no way will impinge on other activities held at the precinct.

ANGAIR does an excellent job of encouraging indigenous plants to be grown in and around Anglesea and district. We are extremely grateful for the work they have done in the Society's indigenous garden.

We believe ANGAIR should be encouraged and assisted in every way possible.

Yours sincerely,

Bruce Bodman

To Whom it may Concern

RE; ANGAIR's Proposed Plant Propagation Facility

Our Club is fully supportive of this initiative, and have no objection to it.

We have sighted the proposed plan / location and consider this a very appropriate addition to the community precinct.

We also note the proposed operating scenarios:

- Proposed usage is only in daytime
- No machinery will be used hence no noise issues are anticipated
- ANGAIR members/ volunteers are mainly of mature age
- Volunteers who drive, will utilise existing car spaces near the Community House, at the rear of the precinct
-

If necessary, we would be pleased to confirm this support.

Yours faithfully,

B. J. Nardon
