

SURF COAST SHIRE
 FILE NO. _____
 FOLIO NO. _____
 4 SEP 2015

We, the undersigned, petition Surf Coast Shire to immediately advocate to Vic Roads, on behalf of the community, to redesign the intersections of the Princes Highway with (i) Henty Main Road and (ii) Cape Otway Road.

We believe there are design problems with the intersections. Through traffic is approaching at highway speeds, which has proven difficult to cross safely. Some motorists appear to be mistaking the intersections for roundabouts. There are no acceleration lanes for traffic entering the highway in either direction.

These design problems have already resulted in a number of 'near miss' accidents and at least three serious collisions. We believe the risk the intersections create cannot be managed effectively by temporary warning signs or other forms of community education. We seek the Shire's support for the intersections to be immediately redesigned, to protect residents and visitors.

Petition commenced ^{27 July 2015} 4 August 2015
