FILE COPY <input type="checkbox"/>	DUPLICATE COPY <input type="checkbox"/>

Dear Mr Bhalla,

Please find attached an additional page of signatures from homeowners in [REDACTED] Aireys Inlet.

These three signatories are opposed to the sealing of Aireys Street as outlined in a letter from the shire.

The petition totally opposes a bitumen surface.

The home owners believe that any changes will attract more traffic as a bitumen surface is an indication our dead-end street serves more than local traffic and does in fact lead somewhere, it will increase traffic speed because drivers will be able to travel faster with a smoother, hard surface and it will destroy the precious rural/coastal amenity that a gravel road is an integral part of.

These signatures should be added to the first part of this petition that was sent to you on August 2 and which your officers have.

Regards

Bob Osburn
[REDACTED]

(petition100815)

We, the undersigned, petition Surf Coast Shire Council to leave in place the gravel surface on Aireys Street between the Great Ocean Road and Sandy Gully. This petition opposes a bitumen surface and other works. We believe any changes will attract more traffic, increase vehicle speeds and destroy the rural coastal ambience enjoyed by residents.
