Dear Richard

Re: Gilbert Street construction and sealing

Following our recent email conversation, we have door-knocked as many landowners as we can along Gilbert Street, between Aireys St and Boundary Road, to ascertain the support or non-support for the Council to undertake a feasibility study. As you will see from the attached list and landowner signatures, of the 17 landowners, 15 are in support and 2 are opposed.

Can you please write to the landowners of lots 10, 18, 25, 27 and 29 to find out their position on this matter.

Thank you.

Kind regards

Margaret Dunn & Ross Murray

To the Property Owners of Gilbert Street, Aireys Inlet.

The condition of Gilbert Street deteriorates regularly, with corrugations and pot holes. Our cars are deteriorating with wear and tear each time we drive on the road. Our road is also used as a through road by the wider community, which increases the constant flow of dust over our properties, reducing our air quality.

At the suggestion of Council, we are seeking your support to have the Surf Coast Council investigate the possibility of sealing Gilbert Street, between Aireys Street and Boundary Road, with bitumen. This is the first step to see if there is sufficient support for the Council to investigate the feasibility and costs, to provide the owners with options.

Marg & Tony Dunn
Merle & Ross Murray
