

Petition to Surf Coast Shire regarding control of rabbits in the Thompson and Freshwater Creek areas and beyond

We, the undersigned, respectfully petition the Surf Coast Shire to:

1. work with the Corangamite Catchment Management Authority and the community to promptly develop and implement an environmental management plan for the Pettavel Road Reserve adjacent to Thompson Creek, with immediate attention to effective management of the severe rabbit infestation in the reserve;
2. urgently review its rabbit control policy, in collaboration with the community and Landcare groups, with the objective of ensuring effective ongoing control of rabbits across the Shire; and
3. in the interim authorise, implement and evaluate the effect of poison baiting for rabbit control on public land in the environmentally significant Thompson and Freshwater Creek areas in 2016.
